

## **INDUSTRIAL PRINTERS S5200E**

Matica S5200E is a compact desktop embossing solution, capable to print 500 cards per hour, dedicated for mid-size issuance programs and distributed issuance programs.

S5200E is designed to exceed the single shift duty cycle, while ensuring consistent performance and output quality.

## KEY STRENGTHS

---

- **Cost effective for small-to-mid volumes (1M a year)**
- **Tabletop issuance of credit and debit cards (EMV)**
- **Third party integration SDK for Smart Card Encoding**
- **Up to 500 cards per hour**
