

## STERIL-ZONE ROOM AIR PURIFIER

Steril-Zone, an advanced room air cleaner, is designed to meet airborne infection control and particulate decontamination challenges in healthcare, commercial and residential environments. Powerful and portable, Steril-Aire Steril-Zone combines three scientifically proven, powerful air purification technologies—germicidal UV, activated carbon and a HEPA-style filter—to safely, effectively clean air in rooms up to 1,000 square feet.

### **BENEFITS OF STERIL-ZONE ROOM AIR PURIFIER**

- **Highest performance:** Delivers the cleanest air possible – greater than 99 percent minimum efficiency down to the smallest micron at 0.3 microns
- **Scientifically proven results:** Independently verified to reduce airborne bacteria, mold and virus as well as Volatile Organic Compounds (VOCs)
- **Safe and ozone-free:** No ozone or secondary contaminants. Cleans the air without ionization or electrostatic charges

- **Powerful:** Compact but powerful, it cleans 1,000 square feet – greatly surpassing the air cleaning capacity of most room air purifiers.
- **Easy to use controls:** Variable speed control and easy filter replacement

***Never settle for less than Steril-Zone – for ultra-clean air.***

The first choice in ultraviolet clean air technology is *still* the best choice. Call Steril-Aire to learn more about the Steril-Zone Room Air Purifier today.
