

CareLink High-Capacity Medication Workstation

CareLink™ Nurse Workstations elevate mobile computing to the next level, with improved communications, N-Stride steer assist, and N-Sight, an intelligent platform for proactive cart fleet management.

CareLink provides ergonomic features, fully configurable storage and organization options, and workflow solutions that simplify the daily tasks associated with providing patient care.

The Carelink Double RX High Capacity Medication Cart offers a flexible drawer system for clinical areas that require larger medication storage volume yet still demand a versatile and mobile workstation. Designed for:

- Bedside documentation
- Medication administration

N-Sight Fleet Management is a cloud-based system that enables Hospital IT to remotely manage and monitor CareLink point-of-care carts used by clinicians. N-Sight facilitates improved asset utilization, maximizes fleet performance and value, and helps identify and prevent issues before they impact clinicians. Single Sign-On is now available with CareLink

Optimize clinical workflows, improve security, and save care providers time with the NEW integration of Imprivata Medical Device Access™ and Imprivata Confirm ID™ with the CareLink Nurse Workstation. The integration enables care providers to quickly and securely access the CareLink workstation, medication drawers and EHR applications with a single tap. [Learn more.](#)

Well Suited For

- Med/Surg Department
- Respiratory
- ICU
- Emergency Dept
- Ambulatory/Outpatient Areas
- Rehab

Key Features

- Configurable medication storage and organization for higher patient per cart care needs
