

CareLink RX Nurse Workstation

CareLink Nurse Workstations elevate mobile computing to the next level, with improved communications, N-Stride steer assist, and N-Sight, an intelligent platform for proactive cart fleet management.

CareLink provides ergonomic features, fully configurable storage and organization options, and workflow solutions that simplify the daily tasks associated with providing patient care. Carelink™ RX Medication Carts offer improved nursing workflow by providing organized, secure storage and the ability to reconfigure drawers on-the-go. Well suited for:

- Bedside documentation
- Medication administration
- California Nurse-Patient Ratio Law compliance
- Cart fill or cabinet-based medication delivery

N-Sight Fleet Management is a cloud-based system that enables Hospital IT to remotely manage and monitor CareLink point-of-care carts used by clinicians. N-Sight facilitates improved asset utilization, maximizes fleet performance and value, and helps identify and prevent issues before they impact clinicians.
