Avalo Series UDLi Large
Unit Dose Integrated
Computing

The latest automated packaging medication cart design is combined with full mobile computing and point-of-care technology in Capsa's Integrated Medication Cart line. This open platform system provides intelligent solutions for medication management, computing with its own onboard power system, and security. Capsa's Integrated Medication Carts operate any computer hardware and peripherals to benefit your medication management process, which is easily handled with the clever design of the UDSi. The robust power system ensures your computing solution attains the longest run-times possible.

Avalo Series is designed for:

- Medication administration process
- EMR/EHR mobilization
- Organized med pass
- Improved nursing workflow

Well Suited For

- Nursing Home/Extended Care Facility
- Assisted Living
- Continuing Care Community
- Hospital

Key Features

- High capacity for automated packaging medications, liquids, and supplies
